Yammer Accelerator

Yammer is a social enterprise workspace that is private, secured, and makes asking questions, sharing content and staying connected simple and easy. Its goal is to make your organization more responsive in a constantly changing world.

When team members are distanced by departments and geography, the benefits of Yammer can close the collaboration gaps. All employees are given a flexible and positive space to discuss new ideas. Problems and questions are answered quickly, and your organization can develop a unified corporate culture that adjusts with future changes.

Our Proven Framework Drives Yammer User Adoption

New Signature understands the requirements for a successful Yammer adoption, and will guide your business through its planning, build, and operation. We begin by setting a unique vision and identity for your Yammer solution and define real-world scenarios to show value. We activate and configure your network, assigning admin roles and onboarding your IT department. Once in place, New Signature experts will identify resource and develop a scalable adoption program. We also support your launch and help you monitor success metrics.

Why New Signature?

New Signature is a cloud- and mobile-first Microsoft solution provider offering full-stack capabilities. With customers worldwide, we deliver compelling customer experiences through the delivery of transformative business technologies.

Yammer Accelerator Engagement

Duration: Ten Weeks

VISION & USE CASES
Weeks 1 - 3

Conduct workshops to generate a vision statement for your social collaboration solution that communicates value and present use cases that identify scenarios.

REQUIREMENTS
Weeks 3 - 5

Conduct network planning sessions with IT stakeholders to design the network and determine configuration steps. Administrators will be onboarded and trained.

ADOPTION PLAN
Weeks 5 - 8

Present best practices for adoption, training, timeline and management. The outcome is a scalable plan to kick-start adoption.

LAUNCH PLAN
Weeks 8 - 10

Craft a strategy to support the successful launch and growth of your Yammer network. We also include an executive briefing and presentation to your leadership team.

Connect with a New Signature consultant today to connect your team with Yammer
