

## Citrix on Azure

Deliver flexibility, agility and optimisation

### Business Benefits

Citrix and Microsoft offer secure, fast to deploy and easy to manage hybrid cloud solutions which can be uniquely integrated and customised to meet your exact needs. New Signature helps you simplify your journey to the cloud with a proven, rapid deployment service that gets you operational fast with the very latest Citrix services powered by Microsoft Azure. Enjoy fast return on investment with a secure solution implemented at a speed and scale, so you stay in control and can move at a pace that suits your business.

#### Reduce cost and increase efficiency

Simplify IT management, streamline operations and reduce cost with minimal upfront investment.

#### Enable secure, mobile productivity

Embrace digital workspaces for outstanding user experience with expanded mobile management capabilities.

#### Accelerate time to value

Accelerate Azure onboarding, application migration and integration with on-premise Citrix services.

#### Reduce risk and security posture

Negate common challenges and become operational with less risk and disruption to the business.

# Rapid Transformation with Citrix Hybrid in Azure

## Mobilise your business transformation in one step

'3 weeks to Citrix Hybrid' service gives you a new, responsive workplace delivery platform fast. Suited to existing Azure and Citrix customers or those new to both environments, we will help you rapidly onboard Microsoft Azure and Citrix cloud services. We'll explore your objectives and envision your future end-state. We'll then build and deploy your new Azure environment and hybrid Citrix platform to which we'll integrate your on-premises Citrix systems. As a final step, we'll connect our own Cloud Management Portal to give you ongoing consumption efficiency with cost management.

### CrossRail

"[We have] a resilient, scalable platform that will allow implementation of further services in the future. The implementation was painless, and the level of support provided by New Signature was excellent."

Chris Waters - Head of Technology and Architecture

### Why New Signature?

New Signature is a cloud-first, full-service Microsoft partner delivering innovative technology solutions that solve human challenges. We work as your single trusted partner to help you achieve transformative change using Microsoft cloud and the latest Citrix technologies and services.

## Rapid transformation with Azure & Citrix Hybrid - Service Overview

Project Duration: 3 Weeks

### ENVISIONING & ALIGNMENT

Through a series of collaborative workshops, we explore your goals and present environment, and help to envision your desired end-state, aligned with your unique business objectives and requirements.

### DESIGN & PLANNING

We design a flexible architecture embracing a foundational Azure cloud environment coupled with a hybrid Citrix platform ensuring security, mobility and ease of management at every layer.

### IMPLEMENTATION & EXECUTION

Following the design phase, our experts implement your Hybrid Citrix solution and conduct necessary stabilisation tests to prepare for next stage of connection and integration.

### CONNECTION & INTEGRATION

We connect your core locations with the Azure environment and establish full connectivity between your on-premises Citrix systems, Citrix cloud services and Citrix services hosted in Azure.

### ONBOARDED & OPERATIONAL

Before handing over to your internal teams, we onboard your Azure environment into our Cloud Management Portal, for complete visibility and control over your Azure consumption. Alternatively, New Signature can manage the new service on your behalf with our cost-effective, pay-per-use support services designed for hybrid cloud delivery models.

Connect with New Signature to confidently take your first step to Citrix in the Cloud.
